**Information**

Adjustable hand levers GN 603, like all the products of the Ergostyle® range, are renowned for their good style but also their ergonomic shape.

They are like all adjustable hand levers ideal whenever parts have to be clamped in a confined space or in a particular lever position. The centre insert is connected to the lever via serrations which can easily be disengaged.

The releasing button offers an easy disengagement. Its use is limited to applications where dismantling of the lever for installation is not required.
