**Specification**

3

- Technopolymer (Polypropylene PP)
  - coated with a soft elastomer (TPE) 70 Shore A
  - temperature resistant up to 80 °C
  - black-gray, matte, similar RAL 7021
- Softline coating chemically bonded with the plastic body
- Bushing brass
- Color of the cap (GN 675.1)
  - DTR
  - DOR
  - DGR
  - DGB
  - DBL
  - DRT
- *Elastomer characteristics* → Page 1483
- *Plastic characteristics* → Page 1483
- RoHS compliant

**Information**

The design of the ball handles GN 675 / GN 675.1 matches the product family of the Ergostyle®. The Softline jacket makes the ball handles particularly ergonomic and safe and easy to handle.

The **soft, slip-proof** contact area improves the contact both in hot (hand sweat) and in dry ambient conditions, in the event of oily surfaces and in very high or very low (freezing) temperatures.

The Softline ball handles are suitable for use both as operating elements and for clamping. The „hard“ plastic core guarantees the perfect anchoring engagement of the threaded bushing, also under heavier loads.

The transparent sight cap at GN 675.1 allows symbols to be placed underneath.
