\* Clamping bolt M5: bolt end and thrust pad are not hardened and not removable.

## Specification

- Grub screw  
DIN 6332 → Page 793
- Thrust pad  
DIN 6311 → Page 794
- Hexagon nuts ISO 4032 / DIN 934  
Steel  
zinc plated, blue passivated
- RoHS compliant

## Information

By means of the retaining ring in the thrust pad a simple and toggle link between bolt and thrust pad is created.

The two hexagon nuts are included parts of the order.
