* only available in version ALM

Specification

- Structural Steel drawn, with sharp edges blackened
- Aluminum pressed matt, ground
- RoHS compliant

Information

STB

GN 970 installation brackets are used universally for right-angle connecting and fastening of, e.g. base plates or covers.

ALM

Type A allows for the use of drilling templates specific to the application as well as fastening by welding.

Type B installation brackets have 2 or 4 holes depending on the length l₁.
