* only available in version ALM

Specification

- Structural Steel drawn, with sharp edges blackened
- Aluminum pressed matt, ground
- RoHS compliant

1 Information

STB GN 970 installation brackets are used universally for right-angle connecting and fastening of, e.g. base plates or covers.

ALM Type A allows for the use of drilling templates specific to the application as well as fastening by welding.

Type C installation brackets have one or two combinations of a hole and an elongated hole depending on the length l₁.
